# SNAP-PSDIN and SNAP-PSUDIN Installation
Installation Steps

Follow these steps to mount your SNAP power supply or standalone controller on a DIN rail, using the enclosed mounting kit.

1. Turn the SNAP device upside down and remove the four screws that fasten the panel mounting base plate to the device. **Save the screws.** Remove the device's base plate.

2. Using the two flat-head screws included with the kit, assemble the SNAP-PSDIN or SNAP-PSUDIN adapter to the DIN clip, as shown in the diagram at right.

3. Use the four screws removed in step 1 to fasten the DIN-rail adapter clip to the bottom of the device, as shown.
